PS, Victoria Bahl has complained to me that John Sinatra keeps paying his secretary Katie [redacted] to threaten Victoria over the phone that John wants to slash her tires. Do address this issue as you see fit.

UNITED STATES DISTRICT COURT
FILED
JUN 12 2026
ANDREW W. MOELLER, CLERK
WESTERN DISTRICT OF NY

Hello again,

I hope that at least this courtroom still has civil case# 26-cv-00181 on file. I don't want another arrest ever again. I have notes prepared on what I've called "Courtroom Defendants & Convicted Persons vs. USA" and if dreams from Yahweh are truly a reliable sensation then my notes being accepted with James Tabner of Concord MA's help at the US Supreme Court are going to apparently break records in terms of using the elastic clause of the Constitution to it's fullest extent against the very nature of criminal court and justice.

Abolishing prosecution being one of many things on the list. Look at the Chief Prosecutor of the International Criminal Court's sexual misconduct allegations. He's the leader of all prosecutors and he's their example. January 2022, David Rudroff said about me on camera in Magistrate Kenneth Schroeder's presence that I am a whiny brat, or something of that nature. No actually my house was broken into and the Olean Police were notified courtesy me and I was upset with Covid era eviction ban abusers like my former neighbor. A year later, Magistrate Schroeder basically told David Rudroff to shut up in court, 6 months later David recuses himself. A year later Michael Digiacomo recused himself. I find it a conflict of interest here in a country that says "innocent before proven guilty" that the US District Attorney's Office pays for public defenders offices' budgets. The long term view of the Trump era where he and Hunter Biden were the lead defendants and the rest of us were a bunch of leaves blowing around in the wind is that prosecutors are a redundant waste of taxpayers' money since courts have a bunch of pre-written guidelines to go by in the first place and they always just recuse themselves in the long run. It's called the

2

It's a bare allegation for me to tell YOUR court that January 28, 2022 my phone's email was hacked and CGIs were made of me at a 2020 protest I never even went to before Andrew/Krystie of Buffalo FBI pointed guns at me forcing me to get into the car and meet them with US Marshals to force me to plead guilty.

Dept. of Justice, not the Dept. of Prosecution. I was the Cattaraugus County Libertarian Party Chairman, John Flynn was a county level DA, his brother Charlie Flynn was Niagara County Libertarian Chairman. The Libertarian Party did not like dealing with the Flynns, Abolish prosecution.

So Sean Eldridge, who lets Katie [redacted] listen to my phone calls, gets her in contact with Monroe County Jail inmates so they can write about the Wenkeville reunion of Wenke Rd, outside clean in soap on the gym floor, and he also paid Katie via Cashapp to type up something on me before he forced Victoria Bahl to miss her April 21st deadline, I advise Sean to be prepared for my mothers inevitabe paying a private firm. Freedom of Speech for me, oldest grandchild of a former village judge, to Air Grievances against black prosecutors from Buffalo who lie in court about my level of vidence for me to call him a stupid fucking nigger who does nothing for the cause of George Floyd. DEI got defunded.

Imagine calling local police when your house gets broken into just to come out over 4 years later to a house raided by squatters for copper piping. Burning the American flag is an Air Grievances right my Courtroom Defendants & Convicted Persons vs. USA notes will hopefully solidify for people.

I am nominating my 2016 vote Hillary Clinton, a former Watergate era lawyer, to ceremonially lead the US Supreme Court Public Defenders Office when my presentation hopefully gets one created. I'm keeping the 2nd Circuit of Appeals updated on everything like but not limited to the April 28th and May 5th court notes I was lied to about. Thank you for keeping civil case# 26-cv-00181 on file like a good taxpayers sponsored courts
